Overview

1. Ethics in Research & Innovation (R&I)
 - a. R&I in Academia and Industry
 - b. Involvement of Non-Experts
2. Tools for Practising Ethics
 - a. Requirements of tool
 - b. Business Model Canvas
3. Ethics Canvas
 - a. Design & Philosophy
 - b. Evaluation

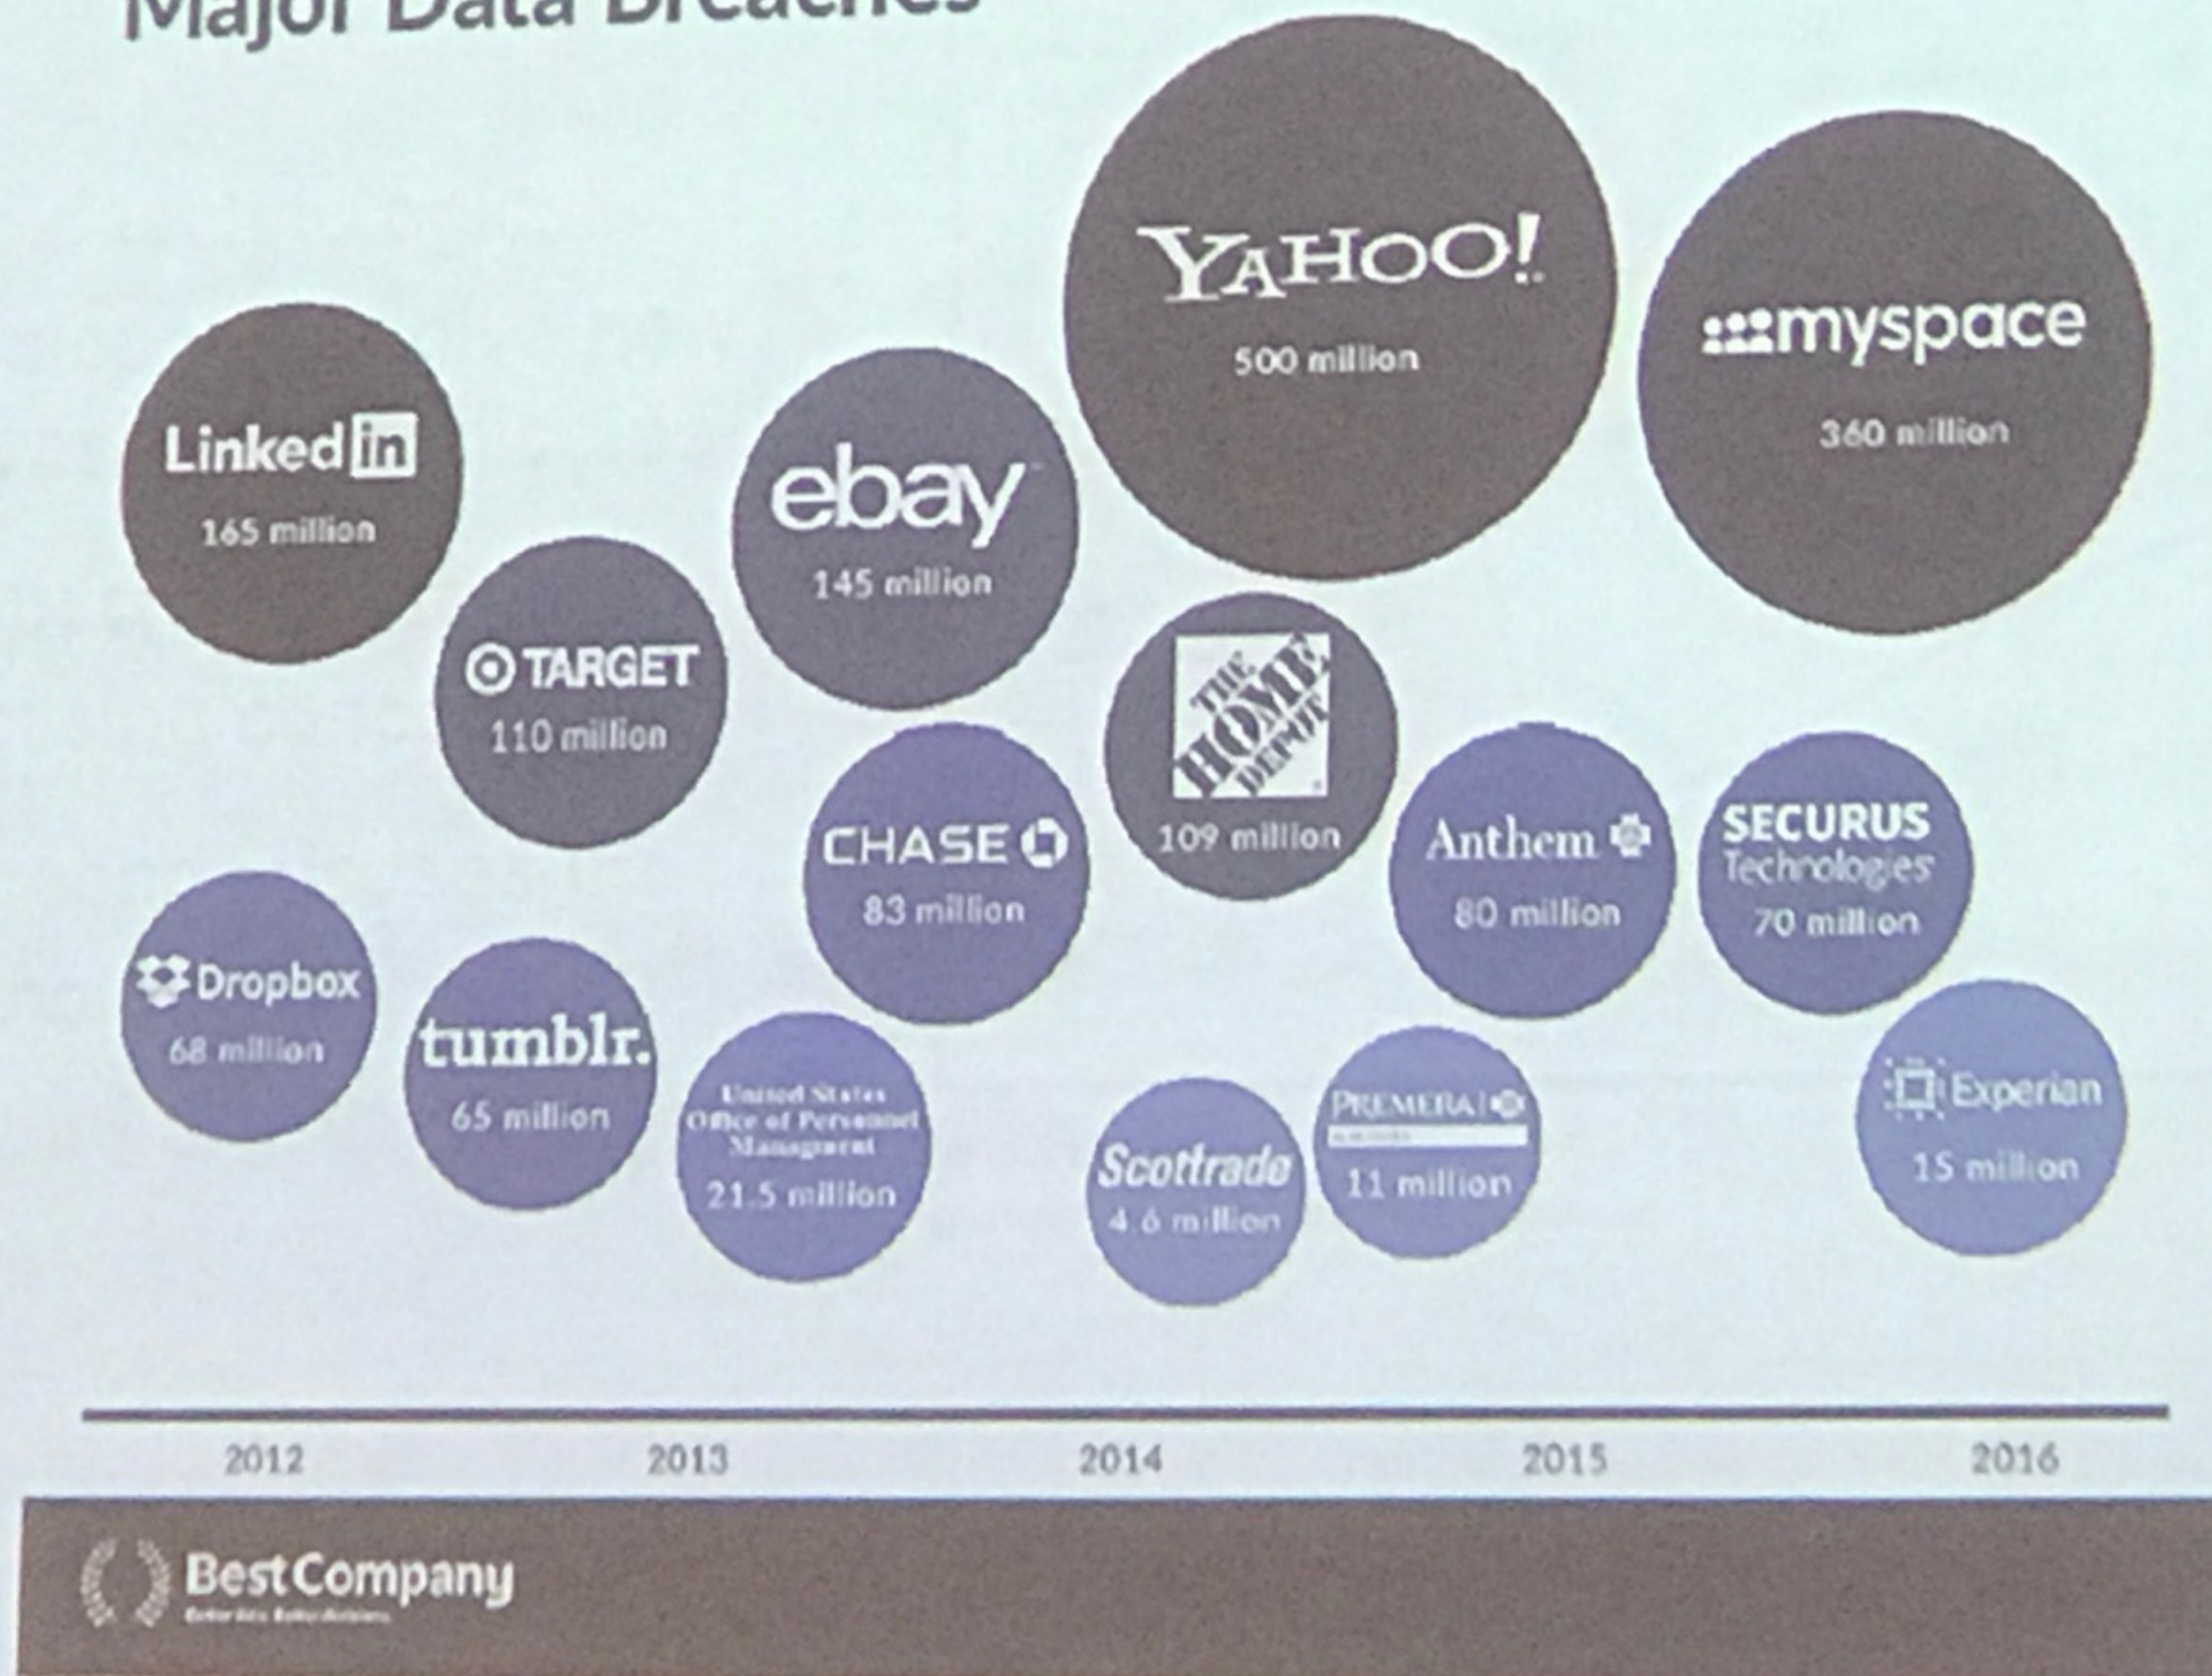

Pervasive Technologies - The Ethical Cycle

1. Rapid technological developments give new pervasive technologies
2. Adoption is faster than practising concern
3. Someone misuses the technology

Customers Affected by Major Data Breaches

Discussing Ethical Impacts in Research and Innovation: The Ethics Canvas
<https://ethicscanvas.org/> | Presented at HCC13, IFIP WCC, Poznan

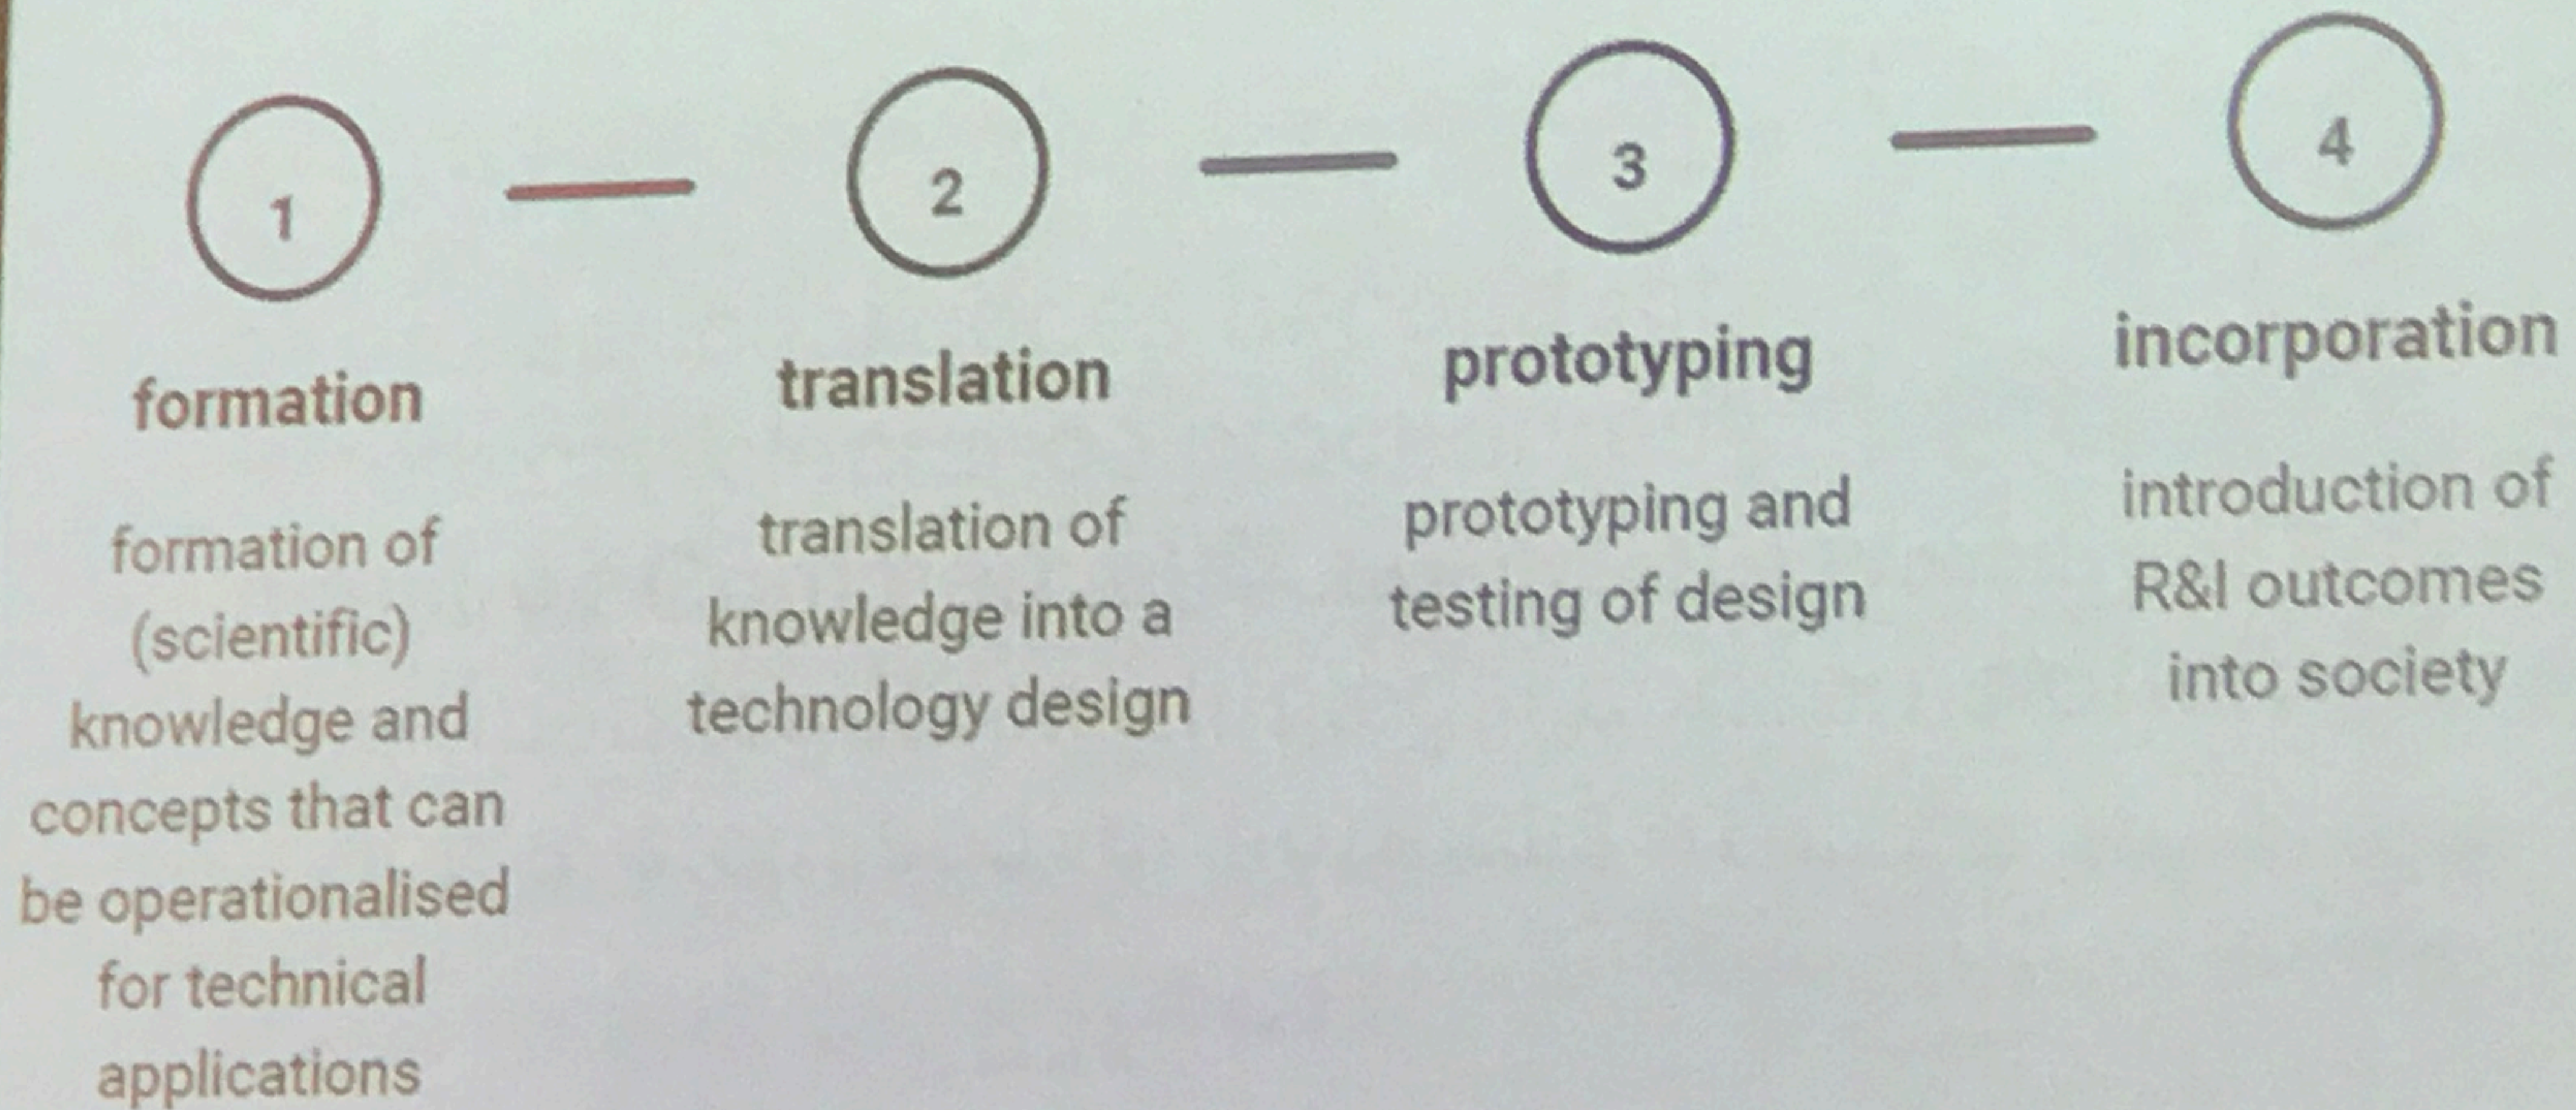

- Academia
 - professional codes of conduct
 - 'ethical' clearance procedures
- Industry / Commercial ← **Reactive; Not Proactive or Reflexive**
 - lumped together with legal concerns often
 - not 'systemised' or 'formalised'

So what is
"ethical
clearance"
all about?

Understanding R&I

Discussing Ethical Impacts in Research and Innovation: The Ethics Canvas
<https://ethicscanvas.org/> | Presented at HCC13, IFIP WCC, Poznan

Requirements to satisfy:

1. accessible to non-ethicists
 - a. or people without a background in ethics
 - b. argument supported by Council for Big Data, Ethics and Society [14]
2. enable collaboration in identifying ethical impacts
 - a. people can be from different backgrounds, roles
 - b. multiple people can contribute using 'narratives'
 - c. fits theories in Science and Technology Studies (STS) [15]

BMC

- * Enable users to discuss how technology might bring about ethical impacts for different stakeholders.
- * Building blocks for holistic analysis of technological applications being discussed

Literature

- * Impacts of technology on individuals, groups, and society as a whole
- * Gathering different vantage points to consider ethical impacts of technology
- * Use writing in Philosophy and Technology

Trial & Error

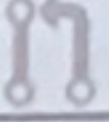

- * Ensure design is user-friendly and intuitive
- * Iterate through series analysis exercises
- * Trial in teaching and training settings with >260 students

Ethics Canvas

The ADAPT Centre for Digital Content Technology is funded under the SF Research Centre Programme (Grant 13-RC-0100) and is co-funded under the European Regional Development Fund... Ethics Canvas v1.6 - work in progress © ADAPT Centre & Trinity College Dublin & Dublin City University 2017

Project Title: _____ Date: _____

Ethics Canvas		Worldviews	Groups affected
Individuals affected Identify the types or categories of individuals affected by the product or service, such as men/women, age/race, user, age category, etc.	Behaviour Discuss problematic changes to individual behaviour that may be prompted by the application e.g. differences in habits, time schedules, choice of activities, people behaving more individualistic or collectivist, people behaving more or less materialistic.	What can we do? Select the four most important ethical impacts you discussed. Identify ways of solving these impacts by changing your product/service design, organisation. Or by providing recommendations for its use or spelling out more clearly to users the values driving the design.	Identify the collectives or communities, e.g. groups or organisations, that can be affected by your product or service, such as environmental and religious groups, unions, professional bodies, competing companies and government agencies, considering any interest they might have in the effects of the product or service.
	Relations Discuss problematic differences in individual behaviour such as differences in habits, time schedules, choice of activities, etc.		
 1	 4	 9	 2
Product or Service Failure Discuss the potential negative impact of your product or service failing to operate as intended e.g. technical or human error, financial failures, network/internet disruption, security breach, data loss, etc.		Problematic Use of Resources Discuss possible negative impacts of the consumption of resources of your project, e.g. climate impacts, privacy impacts, employment impacts etc.	
 7

Online Ethics Canvas

ONLINE ETHICS CANVAS

Canvas Title: Ethics Canvas Adoption

Saved Tags for This Canvas: [tags]

Individuals Affected

- Designers
- Business leaders
- Legal professionals

Behaviour

- Heightened awareness / concern about possible ethical issues
- Delay the launch of product / services until all potential risks are mitigated
- Increased complaints, civil suits

What can we do?

- Increased education / awareness of the use / application of Ethics Canvas
- Include all stakeholders in the use of the Ethics Canvas
- Agile approach - frequent & fast prototyping, testing and reviewing decisions

Worldviews

- Heightened awareness of issues, more appreciation of / respect for diversity
- Overly sensitized / paranoid / suspicion about differences; increased need for transparency

Groups Affected

- Achilles, religious, gender, ethnic groups, parents
- Suppliers, manufacturers, service providers, consumers

Relations

- Product/service developers with legal dept
- Digital agencies with clients
- Service providers and consumers

Group Conflicts

Discussing Ethical Impacts in Research and Innovation: The Ethics Canvas
<https://ethicscanvas.org/> | Presented at HCC13, IFIP WCC, Poznan

Assessment

www.adaptcentre.ie

- Evaluate perceived usefulness amongst users
- Pilot: students creating an ICT application as part of coursework
- Students attend a 1-hour lecture presenting the Ethics Canvas
- Use (online) Ethics Canvas in groups for ~1-hour
- Free to collaborate physically or virtually
- Questionnaire (voluntary) after completing Ethics Canvas

Discussing Ethical Impacts in Research and Innovation: The Ethics Canvas
<https://ethicscanvas.org/> | Presented at HCC13, IFIP WCC, Poznan

14

Evaluation

- 109 students participated in the exercise
- Organised into groups of 3 to 4 students (on average)
- Feedback given by 31 students (28% to total students)
- Questionnaire followed 5-point Likert scale to ask:
 - perceived usefulness of the Ethics Canvas
 - anticipated effect of the Ethics Canvas

56%+28%

(strongly agreed / agreed)
Exercise improved their
understanding of potential
ethical impacts

44%+29%

(strongly agreed / agreed)
Ethics Canvas widened
their understanding of
groups and individuals
affected

42%+35%

(strongly agreed / agreed)
Helped to create a broad
overview of potential
ethical impacts of their
projects

40%+21%

(strongly agreed / agreed)
Ethical impacts discussed
fitted the structure of the
Ethics Canvas

21%

(disagreed/disagreed strongly)
Ethical impacts discussed
fitted the structure of the
Ethics Canvas

52%+5%

(strongly agreed / agreed)
Ethics Canvas led them to
reconsider their business
models for the project

Conclusions

01

Ethics Canvas is perceived as an useful tool to guide participants in discussing a broad range of ethical impacts as well as identification of relevant stakeholders

02

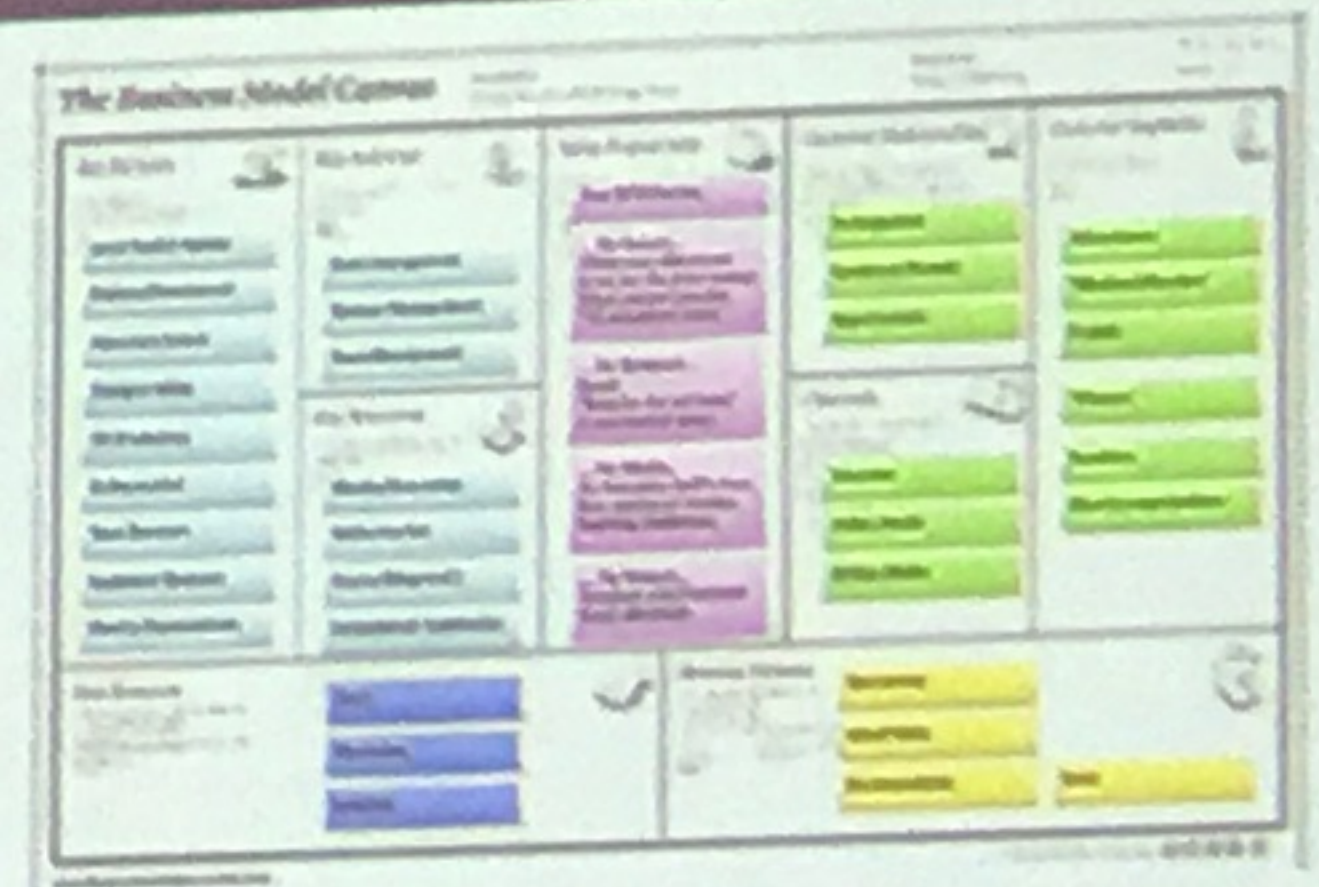

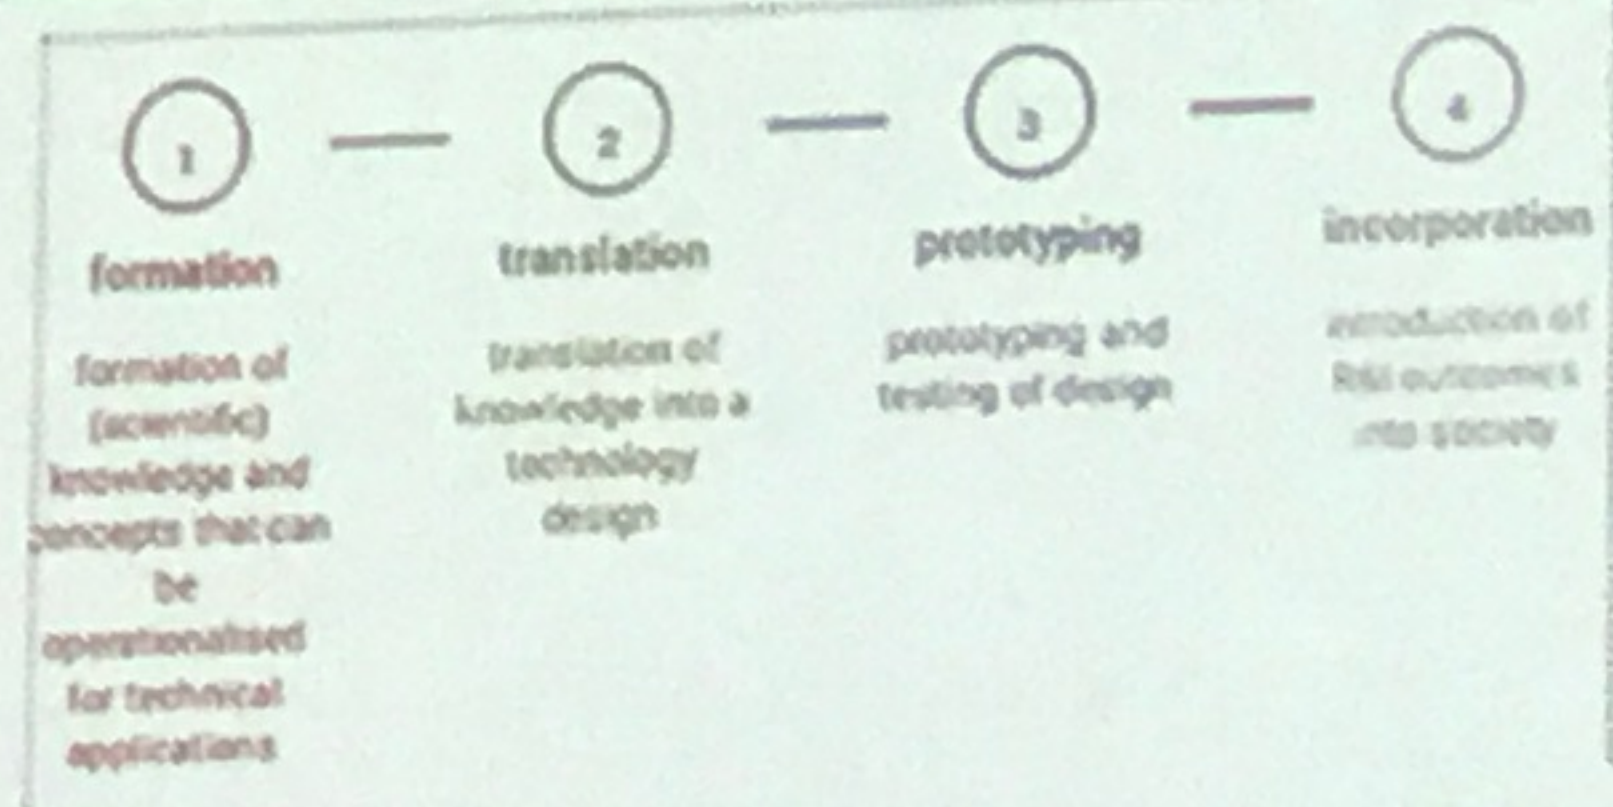

Ethics Canvas can lead to intention of participants to reconsider their business model or technology designs

03

Structure of Ethics Canvas needs to be improved to be more inclusive of potential ethical impacts

To Summarise...

- Academia
 - professional codes of conduct
 - "ethical" clearance procedures
- Industry / Commercial - *Reactive; Not Proactive or Reflective*
 - lumped together with legal concerns often
 - not "systemised" or "formalised"

Ethics Canvas		Project Title:	Date:
1 Individuals affected Who are the individuals or groups of individuals affected by the project?	3 Behaviour How do the individuals or groups of individuals affected behave?	4 What can we do? How can the individuals or groups of individuals affected be supported?	5 Situations In what situations are the individuals or groups of individuals affected?
6 Groups affected Which groups of individuals are affected by the project?	7 Product or Service Nature What is the nature of the product or service?	8 Problematic Use of Resources How are resources used in the project?	9 Group Conflicts What are the conflicts between the groups affected?

56%+28%
 (strongly agreed / agreed)
 Exercise improved their understanding of potential ethical impacts

44%+29%
 (strongly agreed / agreed)
 Ethics Canvas widened their understanding of groups and individuals affected

42%+35%
 (strongly agreed / agreed)
 Helped to create a broad overview of potential ethical impacts of their projects

40%+21%
 (strongly agreed / agreed)
 Ethical impacts discussed fitted the structure of the Ethics Canvas

21%
 (disagreed/strongly disagreed)
 Ethical impacts discussed fitted the structure of the Ethics Canvas

52%+5%
 (strongly agreed / agreed)
 Ethics Canvas led them to reconsider their business models for the project

01. Evaluation of impacts
02. Translate engagement with Canvas
03. Incorporation

1. Evaluation of impacts
 - a. whether the impact is positive or negative
 - b. whether it is severe or non-severe
2. Translate engagement with Canvas
 - a. back to conceptual roots in K&I
 - b. transition outcomes into change frameworks
