SATW Projet No. 2014-047

Proposition de projet

Titre du projet Digital Trust and Confidence at the forefront of the Information Society - towards e-participation

Demandeur Uwe Serdult (Zentrum für Demokratie Aarau an der Universität Zürich)
 projet de la TPF e-switzerland

Brève description du projet
 Digital Trust and Confidence at the forefront of the Information Society – towards e-participation

Based on preliminary works of theme N°6 of the SATW platform e-switzerland, e-participation & sustainable development, e-inclusion. digital trust and confidence

In order to approach the theme of the workshop in an output-oriented way we suggest to concentrate on four specific topics (problematics) which are all confronted with the challenge to reconcile the societal response to the complexity and risk of technological innovation. Namely, we would highlight the following four topics as study cases:

- vote électronique, in relation to a mandate by the Canton of Argovia to study e-voting pilot projects in Switzerland (Zentrum für Demokratie Aarau an der Universität Zürich)
- healthcare
- e-business
- basic needs of the e-consumer (and citizen)

Context:
 The framework for the proposed workshop is defined by:

- Relation avec les tâches de la SATW
- Mise en réseau de spécialistes
 - Détection précoce
 - Dialogue et transfert de connaissances
 - Promotion de l'innovation
 - Promotion de la relève

Objectifs

- To present existing reflections, namely the FING report on DTC
- To share and study differing, complementary views on DTC
- To illustrate with the help of study cases the many components of DTC
- To imagine new innovative approaches in order to promote DTC in the above 4 topics
- To elaborate new ways to collaborate in Switzerland, taking in account the real needs of users, researchers and innovators
- To initiate new projects for themes concerned in the perspective 2014-2016
